

UNIFIED SPORTS OVERVIEW

Unified Sports

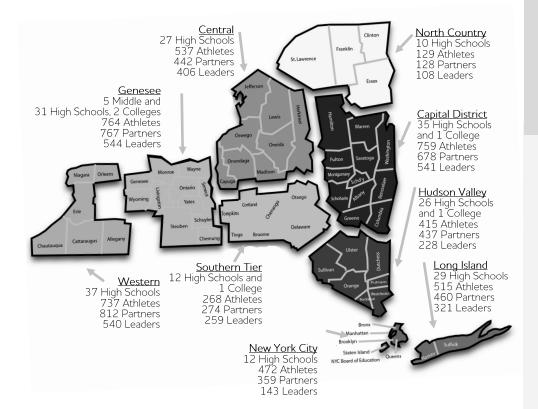

An inclusive sports program that unites students with and without intellectual differences as teammates. Unified sports is the fastest growing sports movement in the world.

Unified Champion Schools

Schools that have incorporated a three-component model of Unified Sports, inclusive youth leadership, and whole-school engagement to create a climate of acceptance and inclusion across the entire school community.

"Before I started Unified, I would see my teammates in the hallway and we never said anything to each other, but now, I have been introduced to all sorts of people and I am so fortunate. Athletes and their parents have told me how I was changing their lives, but honestly, they changed mine. This program needs to be spread throughout the world because it makes a difference."
